THE CITY OF SOUTH SAN FRANCISCO.—The undersigned beg leave to inform the public that a survey of the city of south San Francisco has just been completed, and a map of the city is now to be seen at the store of De Boom, Vigneaux & Grisar, on Clay street.
The site is located on the Bay of san Francisco, two miles southerly of the city of san Francisco, and in plain sight of the shipping in the harbor.
The same depth of water which is found in the harbor of the city of san Francisco, is to be found in the harbor of the city of south san Francisco and along the bay between the two harbors.
The harbor is more securely protected from the wind than the harbor of the city of san Francisco, and ships of the heaviest burden may lay within a boats length of the land at many points, and quite close generally along the whole front of the city, affording the best facilities for discharging cargo.
The land rises in a gentle slope from the water, and is composed of a rich clay soil.
There are extensive stone quarries, and springs of fine running water are found on the face of the hill in many places.
The character of the soil always keeps the air free from dust or sand; the surrounding scenery is highly picturesque, and a more pleasant place for residences, or a more convenient place for business is not to be found on the bay.
A stream of the finest water in California, and sufficient in quantity to water both cities, and all the shipping that ever may lay in their harbors, forms the northern boundary of the city, and will be conducted into a reservoir for such purposes.
The only practicable route for a good road from the city of san Francisco to san Jose, will pass through south san Francisco, crossing the mouth of Mission creek and the mouth of the creek just alluded to.
From san Francisco to san Jose and Monterey is one of the best natural roads in the world, and passing on this road from south san Francisco, you travel along a beautiful valley of hard grass land to the puertesuelo, a distance of less than two miles.
Persons desious of seeing the city will go out on the old Mission road, and will find the Mission about half way.
It is but a short ride—go out and see for yourselves, and if you wish to purchase lots that will shortly equal in value those of the city of san Francisco, call on the subscribers at the store of De Boom, Vigneaux & Grisar.
JOHN TOWNSEND,
CORNEILLE DE BOOM.
P. S. On the first day of October the price of lots will be raised from one hundred dollars to one hundred and fifty dollars. xiis20 1&t

Voyage of the Ship Trescott, of Mystic, Ct. around Cape Horn, 1849.

BY A PASSENGER.

[*Continued.*

THURSDAY, March 8, Lat. 22 deg. 01 min. S., Lon. 35 deg. 20 min. W. The Brig "Oneota" from Philadelphia, 50 days out, with 29 passengers, and bound for San Francisco, has been in sight, a few miles to the eastward of us for a day or two past, and bore down and spoke us this afternoon. The two vessels kept near each other during the afternoon and evening.

I need not say that this meeting of the "Oneota" and "Trescott" was mutually gratifying to the passengers of both vessels. The evening was calm and the weather pleasant. The moon being full, the passengers and crews assembled on the decks of their respective vessels and entertained each other with songs, the execution of which produced the "loudest applause."

FRIDAY, March 9, Lat. 24 deg. 43 min. S., Lon. 39 deg. W. The Oneota is discovered this morning some fifteen miles distant, steering South. Our captain is anxious to keep well to the westward in expectation of westwardly winds after he passes the trades. Consequently the ship heads S. W. by S.

A great variety of sea fowl, including a huge bird of the species called *Albatross*, have followed the ship to-day. An albatross was caught with a hook and line, baited with a piece of raw pork. The wings of this bird when extended, measured 10 feet from tip to tip. Large numbers of flying-fish are seen daily in these latitudes. Flocks consisting of hundreds in number rise from the water, and present at a distance, the appearance of small birds. They fly a few rods, then drop into their more natural element, effecting in this way their escape from the larger fish which seek to devour them. One of these *bird-fish*, alighted on the deck of the Trescott, thus affording us an opportunity of examining more closely the formation of its wings, which were located near the gills, of fin-like form, and very delicate.

WEDNESDAY, March 14, Lat. 24 deg. 37 min. S., Lon. 45 deg. W. A strong breeze from the North. Took in studding sails, and sent down the "royal yards."

FRIDAY, March 16, Lat. 45 deg. 17 min. S., Lon. 44 deg 30 min. W. Preparations to encounter rough weather were made to-day. The tall and slender top gallant masts were sent down, and short, stout spars of the same name, were sent up in their stead. We are now approaching the latitudes of the River La Plata, more dreaded by sailors than Cape Horn.

WEDNESDAY, March 21, Lat. 40 deg. 08 min. S., Lon. 48 deg. 30 min. West. We have to-day experienced a storm of lightning and thunder, more awfully grand and sublime, than any I ever witnessed. The cloud enveloped the ship, and the discharges of electricity appeared to be in our midst. The report of the thunder, as of fifty cannon discharged at no greater distance than the mast head, instantaneously succeeded each flash, and the glaring, serpentine streaks of fire played about us in a manner that threatened our speedy destruction. The air was so strongly impregnated with sulphur as almost to prevent respiration.—But we were preserved from harm by the goodness of a merciful God, whose power and mercy thus displayed on this occasion will never be forgotten by one at least of his finite creatures.

THURSDAY, March 22, Lat. 41 deg. S. Lon. 49 W. A gale of wind from W. N. W., ship hove to.

FRIDAY, March 23, Lat. 40 deg. 37 min. S., Lon. 50 deg. 30 min. W. Squally. Wind S. W., and ship heading W. N. W.

SUNDAY, March 25, Lat. 41 deg. 11 min. S., Lon. 50 deg. 30 min. W. The weather is more moderate to-day—wind N. The uncertainty attending the weather rendered it unadvisable to attempt public religious services to-day.

WEDNESDAY, March 28, Lat. 44 deg. 17 min. S., Lon. 54 deg. W. Squally, and ship headed west under short sail.

THURSDAY, March 29, Lat. 43 deg. 37 min. S., Lon. 54 deg. 30 min. W. Wind S W. and squally.

FRIDAY, March 30, Lat. — Lon. 55 deg. 30 min. W. Bad weather—gales from the S. W.

SATURDAY, March 31, Lat. 45 deg. 59 min. S., Lon. 57 deg. 10 min. W. More moderate weather and a favorable breeze enables us to head S. W. The opportunity thus afforded of once more walking the deck has been fully improved by the passengers. The sky is unobscured by a cloud, and we flatter ourselves that we shall now have good weather until we reach Cape Horn

Monday next being the day for the annual election for State Officers in the State of Connecticut, a proposition has been made that the forms of an election take place on board of the ship. Consequently a notice has been posted, warning all persons to "meet in the dining room". of the "second cabin," on the 2d day of April, at 10 o'clock, A. M., and deposite their votes for Governor, &c. This, in connection with several flaming appeals in the shape of political bills, posted in various parts of the ship, and headed "Democrats arouse." "Whigs to the rercue!" "Free Soil and Liberty!" has created not a little amusement. The affairs of the Nation and the merits of the Mexican war have been pretty freely discussed, and with as much warmth, perhaps, as at home.

SUNDAY, April 1, Lat. 47 deg. 13 min. S., Lon. 57 deg. 45 min. W. This has been a dreary day to those on board the ship Trescott. The sun arose clear, and the sky has been unclouded throughout the day. Yet we have experienced a gale more severe than any which we have had since leaving port. It commenced about 9 o'clock A. M., with a *white squall*, and increased with such rapidity as soon rendered it necessary to "lay to" with all sails furled, excepting the main topsail, and jib staysail. The ocean was white with foam, and the monster waves came rolling toward us in awful grandeur. It seemed as if the ship and all on board must inevitably be engulphed. The roaring of the wind, as it passed through the rigging, sounded not unlike the noise of steam when let off in full force from the steam pipe of a large sized boat, accompanied by a shrill whistle, most ungrateful to the ear. The bell of the ship tolled in a dirge-like manner during the gale, occasioned by the rolling and pitching of the vessel, thus forcibly reminding us of the sad fate of the steamer Atlantic, when it was remarked that the bell of the boat continued to toll for several days after her destruction, as if in requiem for the death of so many persons who were lost on that occasion. The ship behaved nobly, as in fact she always does when laying to. Occasionally, however, when struck by a huge wave, she would keel over on her beam ends so as to dip her fore yard some two feet into the water. Several seas broke over the rail of the ship, wetting the poor sailors sadly; but they seemed fully compensated for all this, if, perchance, a bevy of "*luberly landsmen*" happened to be treated to the same dose. Of course no public religious services could be held to-day on board.

[TO BE CONTINUED.]

E. MICKLE & CO. are now landing from the ship Pacific, from New York, a choice assortment of Provisions, Liquors, &c., consisting in part of the following—

PACIFIC NEWS.

Tuesday, September 25, 1849.

The Weekly Pacific News for the Steamer Oregon.

Will be ready for delivery on Saturday next at 12 o'clock. It will contain a carefully prepared Price Current, Review of the Market, &c. &c. &c. Those who may desire to forward by the Steamer, papers containing the news, doings, &c. of San Francisco, and vicinity, for the month ending on Saturday next, consisting of about *eighty-six* columns of solid matter, will be supplied with the Pacific Weekly News (four numbers) done up in wrappers, at one dollar for the sett complete. Early engagements are suggested.

Our City.

The intelligence, energy and wealth, centered in San Francisco, is probably not equalled by any place of its size on the habitable globe. Men of cultivated minds and indomitable energy, from the most enlightened nations, have directed their steps hither 'till almost our entire population is composed of individuals excelling in the various avocations they have been bred to.

From the statesman to the common laborer, through every variation and gradation of human pursuit, in the arts and the sciences, in mechanics, in the learned professions, in naval and military representation, and in commerce; we venture to say there is not in the world a town of our size and age, exhibiting such a degree of intelligence and capacity, intellectually and pecuniarily, as is found in this wonder of our modern republic.

Instead of old age and childhood, of poverty, disease and degradation we have adolescence, the prime of manhood, health, wealth, and integrity of character, the elements of a nation's prosperity and advancement, affording an earnest of our future greatness, and the speedy realization of our fondest hopes of a place in our nation's galaxy, the pride of our own land and the wonder of nations. It is not, we think, too much to say, that Upper California will assume a position in a very few years which will be second to none in importance, of any of the States of our Union.

Geographically the western depot of North America, and the point of attraction of the eastern hemisphere, she also possesses within herself untold wealth, and will reward with a munificent hand the toil of her sons. To inexhaustible mineral wealth she combines a soil and climate that vies with those of Turkey, Italy and Andalusia, and that can justly divide with them the claim to the Eden of the World. We confidently assert that California will rise to a position of importance and wealth in our republic, in a period of time unequalled by any other State in the Union. We have resources within our own borders to make ourself respected and honored; our motto is *Excelsior*, and the future will verify our predictions.

Police Organization.

We learn that an effective organization of the police of San Francisco, has been arranged, composed principally of efficient men who have had much experience in New York, headed by M. Fallan, Esq., who for many years was the keeper of the Tombs in the city of N. Y. Capt. Fallan was appointed to his present station on the 12th of August, and has made, with the assistance of his force, ninety-seven arrests. The murderer, Daniels, now under sentence of death, was arrested in one hour from the time the complaint was lodged with the Alcalde, by the promptness of this vigilant officer. Among the arrests made are, 1 for rape; 40 for drunkenness and disorderly conduct; 3 for selling or offering for sale the meat of calves which died of exhaustion; and a large number for stealing.

The school house on Portsmouth square is used as head quarters for the police, where these guardians of the public peace and safety are on duty day and night. Fifteen prisoners, (among them, Daniels,) are now under the charge of Capt Fallan and his aids—the school house being the only prison San Francisco is at present provided with.

☞ A rumor was in circulation last evening, that the steamer Panama had met with a misfortune on the passage from San Francisco to Panama. We have endeavored to obtain some reliable information on the subject, but do not learn that any just cause for alarm exists.

☞ Through the indefatigable exertions of our new postmaster, Mr. Moore, the arrangements at the post office for the distribution and delivery of letters &c., are now such that no further cause of complaint will exist on the part of the public.

African Gold.—Among the entries in two lots, at the custom-house at New York, on the 30th ult., were one hundred and four ounces virgin gold; and one of eight ounces and ten pwts. The gold was brought by the brig Lauretto from the coast of Africa.

Trial for manslaughter.

The case of Mr. A. Shell, under indictment for killing a man by the name of Robinson, at the *embarcadero* of San Jose, on the 13th inst., was called for trial last Tuesday, and resulted in the entering of a *nolle prosequi* by the District Attorney, the prosecution having no testimony to offer in behalf of the people. Mr. Shell was therefore discharged from custody, completely exonerated from all blame in the unfortunate occurrence which resulted in the death of a fellow-creature. On the part of the defence, appeared several of the most eminent legal gentlemen of California, among whom were Mr. Van Buren, of Albany, nephew of the Hon. Martin Van Buren, and Col. Russell, who volunteered their services, and refused all compensation. There were in Court all the persons present, or having personal knowledge of the affray, and their testimony was stated to be entirely in favor of Mr. Shell, and the counsel appeared anxious for the closest investigation. A friend of ours, who was a fellow-passenger of Mr. Shell, and attended the trial, informs us that the innocence of the accused was clearly established, the act being one of necessary self-defence. The whole proceedings were marked with the highest degree of order and decorum, and several of the speeches of counsel impressive and eloquent.

Arrest of Mutineers. Beatie, Cummerford, Hall, and the brothers Black, the boat's crew of the U. S. schooner Ewing, who so barbarously attempted to take the life of Passed Midshipman Gibson, by throwing him overboard from the boat, while returning from shore to the vessel, at night, some time since, were all arrested on the morning of Sunday, the 16th inst., at New York on the Pacific. They had been without food for two days, and were forced down from the hills by hunger, and were at once betrayed by their appearance and contradictory stories. On being arrested, they at once confessed their crime, and expressed the hope that the officer they attempted to drown, was dead. They are all Englishmen, and were shipped at Callao, on the voyage of the Ewing out. They are now safely in irons on board the Savannah, and will hardly escape the punishment merited by their cowardly and cold blooded crime. The greatest credit is due to the naval and civil officers for the promptness and perseverance with which they pursued the villains, though chance threw the capture into other hands.

Independent Order of Odd-Fellows.

This wide-spread and benevolent order, numbering in the U. S. nearly two thousand lodges, and a membership of two hundred thousand banded together for the promotion of the holy offices of charity and mutual relief, planted her first standard on the golden shores of California on the evening of Saturday last, 22d inst. The large numbers of the brotherhood who had chosen this favored land for their residence—whose hearts were alive to the interests and welfare of their cherished institution, induced them to take measures for the establishment of the order in San Francisco; and their efforts were consummated on the evening named by the institution of "California Lodge No. 1, of the I. O. of O. F."—P. G, James Smiley, Merchants Lodge, No. 283 of Philadelphia, acting as Grand Master, assisted by P. G Daniel Norcross, of Apollo Lodge No. 296, also of Philadelphia. The following are the names of the petitioners:

J. M. Coughlin, Hospitaller Lodge No 295, N. Y.
R. H. Taylor, Hospitaller Lodge No. 295, N. Y.
E. C. Franklin, Wyandank Lodge, No. 336, N. Y.
Julius Rrose, State Rights Lodge No. 391, N. Y.
Henry W. Henley, Phenix Lodge No. 41 N. Y.
James Smiley, Merchants Lodge No. 295, Penn.
Wm. Burling, Atlas Lodge No. 295, Pa.
J H Dall, Cape Fear Lodge No. 2, N. C.
David Jobson, Delta Lodge No. 15. La.
Louis Tramble, Jefferson Lodge No. 7, Illinois.

The officers elected and installed to govern the district of the first scion of Odd Fellowship in our far-off land are—

R. H. TAYLOR, Noble Grand.
H. W. HENLEY, Vice Grand.
E. C. FRANKLIN, Secretary,
J. M. CAUGHLIN, Treasurer.

There was quite a large attendance of visiting brethren present, and the occasion will be one pleasant to the memory of those who participated in the ceremonies of Institution. The lodge room is in Kearny street, over the "New England House,"—entrance in the rear.—Long may the Order flourish in our midst, ministering to the wants and soothing the woes of those who need its offices of kindness and care.

A sailor who while at sea allows his wife half pay is not liable for her debts. Such is the decision of the English courts.

Public Fast. It will be seen by the following recommendation, by the President of the United States, that the first Friday of August, was observed throughout the Union, as a day of Fasting, Humiliation and Prayer, in view of the fearful ravages by the cholera which was spreading itself throughout the land.

OFFICIAL.

By the President of the United States.

A RECOMMENDATION.

At a season when the Providence of God has manifested itself in the visitation of a fearful pestilence, which is spreading its ravages throughout the land, it is fitting that a people, whose reliance has ever been on His Protection, should humble themselves before His Throne; and, while acknowledging past transgressions, ask a continuance of Divine Mercy.

It is, ther-fore, earnestly recommended that the first Friday in August be observed throughout the United States as a day of Fasting, Humiliation and Prayer. All business will be suspended in the various branches of the public service on that day; and it is recommended to persons of all religious denominations to abstain, as far as practicable, from secular occupations, and to assemble in their respective places of Public Worship, to acknowledge the Infinite Goodness which has watched over our existence as a nation, and so long crowned us with manifold blessings; and to implore the Almighty, in His own good time, to stay the destroying hand which is now lifted up against us. Z. TAYLOR.

Washington, July 3, 1849.

Sentence of Joseph Daniel. The Frenchman, Joseph Daniel, twice tried for the murder of Peter Pettit, in this place last August, and found guilty, was brought into Court, on Wednesday, 19th inst. and sentence of death pronounced.

During the delivery of this most solemn decree, the prisoner exhibited much emotion, but on fully comprehending, through the services of an interpreter, the awful doom which awaited him, his error and despair knew no control; violent paroxysms convulsed his whole frame, and he was removed, scarcely able to stand upright. It is believed he will yet make full confession of guilt.

The following is his sentence as pronounced by Judge Geary:

Joseph Daniel, have you anything further to say why sentence should not be pronounced against you.

You have been tried by an intelligent and an impartial jury, empanneled and sworn according to law. The evidence before the jury was such that, under their solemn oaths, they have pronounced you Guilty, after a brief consultation. You have been thoroughly and honestly tried; the constitutional right to be tried by jury has been extended to you. The interests of the people of this territory have been represented by one who conducted your prosecution with ability; yet, in doing so, took great care not to do anything against you that the law did not allow of, and evinced no greater zeal than his duty required. You have had the benefit of talented counsel, who exhibited the greatest zeal in your defence.—Yet the jury, although extending to you the benefit of all reasonable doubts, and of our merciful and just law, has convicted you of the highest crime known in the catalogue—that of the murder of your friend and fellow-countryman.

Your trial, conviction, and punishment should be an effectual warning to all.

This Court can feel no pleasure in doing that which the law imposes on it as a duty; and it now only remains for me, in the discharge of that deeply responsible task to exhort you to prepare for the awful scene that awaits you, and to pronounce sentence upon you.

Your sentence is, that you be taken to the place of confinement, and then, on the 26th day of October next, to some convenient place of execution, and, between the hours of 10 o'clock, A. M., and 4 o'clock, P. M., you are to be suspended by the neck, between the heavens and the earth, until you are dead

May Almighty God have mercy on your soul!—[*Alta California.*

From the N. Y. Cour. & Enq.

The New Steamship Empire City.—This new and splendid vessel which is intended for the route between New York and Chagres, made a trial trip on Tuesday last, which proved, to the satisfaction of all who were on board, that the expectations of her owner and the public, relative to her capacity and accommodations, are more than realized.

The Empire City is of 2000 tons burthern—500 tons larger than her consort, the Crescent City—is 244 feet long on deck, with 40 feet breadth of beam, 25 1 2 feet depth of hold, and draws 12 1-2 feet water. She is beautifully proportioned, and of great strength, having been constructed with particular regard to the latter qualification; with this point in view, her plank are bolted edgeways, a novelty in naval architecture. Another peculiarity of her construction is a flush deck similar to that of the Packet ship Henry Clay, answering to the hurricane deck of our sound and North river steamers. This desk, which runs the entire length of the vessel, forms a most delightful promenade in fine weather, relieving the traveller from much of the confinement hitherto attendant upon a sea voyage.

The interior accommodations and decorations surpass even the most "unsurpassable" of all the predecessors of this ocean palace. The ladies saloon, with its magnificent sofas, lounges, and chairs of rose wood, upholstered with damask satin, in purple and gold, its rich Turkey carpets, massive mirrors, paintings, &c., appears to be the very perfection of the beautiful. Indeed in the furnishing and arrangement of the entire vessel, there is an air of refinement and gorgeous elegance, blinded with a most correct display of taste, that charms the beholder, and almost persuades him that he is gazing upon the *bodour* of an eastern fairy. Nor is solid comfort, utility, and convenience lost sight of. The numerous state rooms are furnished with every convenience, and the ventilation is complete.

Overland Emigrants to California.—A correspondent of the St Louis (Mo.) Republican, at Westport, Mo., under date of the 28th ult. says: Up to the 13th inst. when I left the Pottawatomies trading post to come to the settlements, the movers were getting along in fine style. There were two ferries at the crossing of Kansas, about fifteen miles apart, and two boats at each ferry; each ferry was said to cross from 65 to 70 wagons per day; cost of ferriage one dollar per wagon. Roads were good, grass plenty, and wood and water sufficient. Sickness had prevailed in some of the trains, particularly those from Indiana, and other eastern States have suffered from sickness; between the line of Missouri and the crossing of Kansas eight persons were buried—disease, cholera. This is up to the time I got down, (say about the 14th inst.) I have heard nothing further from the road. A number of deaths have occurred in the camps, about Independence, thence to the line, and in the neighborhood of Westport. About the 20th ult., the cholera commenced at Kansas, where in two or three days it took off fifteen persons, some of whom were inhabitants of the place. At Westport some deaths have occurred, and although a number were seized with premonitory symptoms, dysentery and the like, but two or three of the inhabitants have died. In the country and in the vicinity of Westport, although dysentery has more or less prevailed, I have only to record one death, which took place yesterday morning Mr. Charles H. Cummins was attacked with cholera on Wednesday evening last, and although every attention and the proper medicines were administered by his parents, terminated fatally. The deceased came in from Santa Fe during the last severe winter, encountered incredible hardships on the road, was snow blind for three days, and without food, (excepting an ear or two of corn) for five days. He left his wagons about 120 miles west of Council Grove, and hurried in with a negro man (to the Grove) to procure provisions for the teams behind. He became snow blind, lost his way, exhausted, yet never gave up, and succeeded in reaching the Grove, where he procured provisions to relieve the teams behind. When he reached home he was in better health than he had ever been in his life. He was a stout, hale, hardy man; but cholera, it seems, spares neither large nor small, rich nor poor.

Two Irishmen travelling together to York, happened to pass by a gallows.

'Barney,' said one, 'where would you be if the gallows had its due?'

'Faith, said Patrick, 'an' I'd be walking to York all alone by myself, to be sure.'

Later from Rio Janeiro. We are in receipt of files of the Jornal do Commercio to the 26th May, two days later than previous accounts. The American steamer Santa Cruz, which left Rio for California on the 21st, foundered at 2 A. M., on the 22d, when nine leagues distant from Marambia. It seems that she had met with very heavy weather, sprung a leak, and went down so quick that the crew had scarcely time to get out the boats All hands were saved, and arrived at Mangaratiba on the afternoon of the same day. We find no other news in these papers.

☞ AMERICAN THEATRE.—The undersigned having purchased a suitable and commanding site upon Portsmouth square, will immediately proceed to the erection of an elegant and commodious building, to be devoted to the drama.

Having secured the valuable services of Mr. A. W. Fenno, he will assume the sole management. Mr. F.'s high professional standing, and the experience of many years in the management of several first class Theatres, is a sufficient guarantee of his ability to meet the views and wishes of the public Mr. F. will return to the states for a full, efficient, and talented "corps dramatique." Negotiations are in progress, to procure a splendid company of spanish dancers, and the Theatre will be opened as soon as practicable.

The want of a place of intellectual amusement has been long felt, and the proprietors are confident that the establishment will be conducted in such a manner as to meet the approbotion of the most fastidious. A building will be erected that will be an ornament to the city, and an offspring of the soil, being built of California wood—*native* talent, of which the American stage is justly proud—will be warmly cherished, and every effort made to secure the best artists of the United States and Europe.

The undersigned having invested a large outlay of capital, rely with confidence on the liberal support of all classes of their fellow citizens.

Plans and specifications for the erection of a Theatre 50 feet front by 84 deep, will be received at the office of Messrs. Adler & Chapelle, court house, Portsmouth square, from 10 A. M., until 3 P. M., until the 25th of september.

JOSEPH W. FARNUM, M. D.,
Assayer and Metallurgical chemist, Refiner of Gold, Silver and Platina.

As evidence of fitness, he would refer to the following testimonial:

Mint of the United States,
July 19, 1843.

On the establishment of the U. S. Branch Mint at Dahlonega, Dr. Joseph W. Farnham was appointed assayer, with the duties also of melter and refiner. It is an act of justice which I have great pleasure in performing, to state that during his long tenure of office, he executed its duties with a degree of assiduity, skill and exact accuracy, worthy of all commendation, and such as secured the entire confidence of all persons connected with the mint, or doing business with it.

He recently, to my very great regret, determined on presenting his resignation, and has thus deprived the mint of his valuable services. A proof of confidence in him has been shown, by the appointment as his successor, of a gentleman who had been his assistant, and who owes to him his whole knowledge in the art of assaying.

In parting with Dr. Farnum as a member of the mint establishment, I cannot withhold the expression of my high regard for him as an officer and a man, and my hope that his varied talents and acquirements, may still prove important to the community in some other department of usefulness.

R. M. PATTERSON, Director.

TO PERSONS GOING TO THE MINES—The subscribers have erected a large Warehouse at Culloma, on the south fork of the American river, where they have now on hand, and are daily receiving, an extensive assortment of Provisions, Mining Implements, and every article needed by the miner, which are offered at wholesale and retail, as such prices as will make it the interest of all to purchase there, and thus save the great trouble and expense of forwarding.

Our partners at San Francisco, Messrs. Simmons, Hutchinson & Co., being at all times in the market, our goods are purchased at the lowest rates—forwarded by their line of packets to Sacramento City, and from thence to Culloma by our own teams; consequently can be sold at as low rates as those of any other house.

We have also established branches of our store at several points on the North, and Middle and South Forks, to which our pack animals are running daily, enabling us to forward letters and packages to our customers immediately on the arrival of the steamers.

Bills of Exchange on New York furnished, and dust forwarded at the lowest rates.

CAUTION.—Whereas, one J. A. Sutter has published a notice, in which he claims title to the land on the east bank of the Sacramento river, between the Feather river and the American Fork, I hereby notify the public that I am the only legal owner of the said land, under a warranty deed from J. A. Sutter himself, dated Aug. 10, 1843; and I therefore caution all persons that no legal title can be acquired to the same, or to any portion thereof, except through me. Justice to myself requires me to add that I shall hold the said J. A. Sutter legally responsible, both for the libel on my character, and the slander of my title, which his notice contains; and that if its publication is the result of a conspiracy to defraud me of my property, I shall take care that the offenders be brought to justice as soon as a criminal court before which they can be tried, is legally organized in this territory.

Any person desiring to satisfy himself of my title to the above land, is invited to call on S. Brannan & Co., at Sacramento City, or on the undersigned, at the counting room of E. Mickle & Co., Clay street wharf, san Francisco. HIRAM GRIMES.

NOTICE TO SQUATTERS.—The undersigned begs leave to caution the public in general against squatting upon his farms or ranchos, as follows: One farm on the river Sacramento, extending to the mouth of Feather river and American Fork, known as *Rancho del Passo*.

Also, two ranchos on the San Joaquin river; one of 3 leagues, granted to Don Hernandez by Gov. Micheltoreno, and adjoining the same; being one undivided half of 8 leagues granted by Gov. Micheltoreno to Balentine Heguira, near the Pueblo pass.

All persons are hereby notified to abstain from taking possession of any portion thereof, at the peril of being proceeded against according to law.

TOWN OF BOSTON.—Lots at the town of Boston, beautifully situated at the junction of the American Fork and Sacramento rivers, are now offered for sale. The town of Boston is only a few hundred yards above Sutter's Embarcadero, on the north side of the American Fork, and in the immediate vicinity of the gold mines, and from its situation possesses superior advantages for business purposes. The land which forms the site of the town is twelve feet above the highest water mark, and the river is twenty-three feet in depth at the banks. It is believed that no place offers greater inducements for investments than this town, as in addition to the above mentioned advantages it has a fine climate, good soil, with an abundance of excellent water, and is free from inundation at all seasons. The town has been surveyed by Mr. J. Halls, and laid out in a convenient manner, and a plan of it can be seen, and any other information relating to it obtained on application to HIRAM GRIMES,
s1 tf or, J. HALLS.

DRUGS, MEDICINES AND PAINTS.—E. D. BYRNE, & Co., respectfully give notice to the public that they have opened a store for the transaction af the above business, at Sacramento city, on 2d street, between J. and K. streets, and will at all times keep on hand as large and complete a stock as can be found in California. The selection of medicines has been made with the utmost care, and the genuineness and purity of the articles will be guarantied. Particular attention paid to orders from the mines, and from physicians. and prescriptions put up in the most careful manner. a28 3m

NEW YORK OF THE PACIFIC.—The City of New York, of the Pacific, situated at the head of ship navigation upon the bay of Suisun at its junction with the rivers Sacramento and San Joaquin, has been most accurately surveyed by Captain R. P. Hammond, U. S. A., and laid out in the most beautiful and convenient manner, and maps have been prepared by E. H. Rowe, Esq., engineer and land surveyor, pointing out clearly each and every lot within the surveyed limits of the city, and the proprietors now offer them for sale to the public. Along the entire water front of the city, a public street is laid out one hundred and fifty feet in width, beyond which no ground will ever be sold, and the proprietors therefore guarantee to the purchasers of all lots fronting on Water street, that no building shall ever be erected between their purchase and the water. There is no point along the entire water front of the city at which vessels of the largest class cannot lay within thirty feet of the bank of the river, and there are but few points where a large class of vessels cannot come immediately to the bank and discharge their cargoes, and at all points where this cannot be done, wharves will be built by the proprietors as soon as materials for building can be procured. The centre street of the city running North and South is one hundred feet in width, and all the other streets seventy-five feet; the lots are fifty feet front, by one hundred deep, and there is not a lot within the survey unfit for building purposes.

There are three public squares laid out within the survey, which will be given to the city, and the proceeds of the sales of all the lots fronting on the squares will be appropriated to the erection of public buildings. The titles to this property are perfect and complete in every particular.

There will be established immediately at the city a record office in charge of a competent official person authorized to take acknowledgements and record deeds, and where the original title deed to this property will be recorded, and where it is desired that all deeds for lots purchased should be immediately recorded.

The purchasers will be required to make improvements within a specified time.

The advantages of the location of this city over any other above San Francisco, are too well known to all who have either passed up the river Sacramento or San Joaquin to require any comment from the proprietors; but to all persons who have not had the opportunity to examine the site, we say that there is not in all California a point combining so many advantages for business purposes, with the advantages of a fine, healthy climate, dry soil, free from inundation, at every point, throughout the year, a superior harbor for vessels of the largest class, and an abundant supply of pure water at all seasons. To these advantages, we will add that permanent arrangements have been made for two steamers to commence running in all the month of August daily from San Francisco to the new city; and also two steamers of very light draught of water with tow boats prepared to navigate the Sacramento and san Joaquin, and their tributaries, from New York, below which they will not come. For lots or any information connected with the city of New York of the Pacific, apply at the office of the proprietors in Portsmouth square, san Francisco, and at the city of New York.

TOWN OF SUTTER.
(LATE SUTTERSVILLE.)

This town has has just been re-surveyed and laid out by Lt. J. W. Davidson, of the U. S. A., and lots therein are now offered for sale here, by the subscribers, and at the Town by George McDougald & Co. This town is beautifully situated upon the east bank of the Sacramento, within about two miles of Sutter's Fort, having a fine road leading therefrom direct to the mining region, and is some six miles nearer the mines by this road than any other embarcara point upon the river. A direct road is also being made on the opposite side of the river, which will, when completed, save 74 miles land travel to the mines. The locations upon the river banks for business purposes are never subject to overflow by the highest water known on the river, and the high ground back is the most desirable location for a residence of any point that can be selected upon the banks of the Sacramento.

TOWN OF SANTA CRUZ.

The survey of this Pueblo, one of the oldest in California, has recently been corrected and mapped by Lieut. WILLIAMSON, U. S. A. It is situated in the Bay of Monterey, and presents more advantages for an agreeable residence than any other in California, for it is well known that at no part of the whole country is the climate purer, water better, soil more fertile, and where so unlimited a supply of lumber and timber for building and fencing purposes can be procured at prices nearly as low as the United States. The town and planting grounds are laid out in lots of 60 varas square, a large number of which are now offered for sale at very moderate prices by the subscribers.

SAN FRANCISCO.

Some of the most desirable locations for private residences or business purposes in this town, can be purchased or leased of the subscribers.

Maps of the city of New York of the Pacific, the towns of Sutter, Santa Cruz, and san Francisco can be seen at the Land Office of the subscribers on Clay street, south side Portsmouth square.
